

PACING SCHEDULE FOR MATHEMATICS

Grade Six

DATES	CONCEPTS	Completed
9/6	Grade Level Readiness	
9/10	Place Value, Exponents, and Estimation	
9/17	Building Number Sense	
9/24	Expressions and Equations	
10/1	Decimal Concepts	
10/8	Decimal Computation	
10/15	Applications with Decimals	
10/22	Application with Decimals	
10/29	Number Theory	
11/5	Fraction Concepts	
11/12	Adding and Subtracting Fractions	
11/19	Adding and Subtracting Mixed Numbers	
11/26	Multiplying Fractions	
12/3	Dividing Fractions	
12/10	Ratio, Rates, and Proportion	
12/17	Meaning of Percent	
1/3	Finding Percent	
1/7	Algebra: Using Percent	
1/14	Understanding Integers and Rational Numbers	
1/21	Geometry – Lines and Angles	
1/28	Systems of Measurement	
2/4	Perimeter, Circumference, and Area	
2/11	Interpreting Data	
2/25	Reading and Making Graphs	
3/3	Inequalities	
3/10	NYS Testing	
3/17	Similarity and Scale Drawings	
3/24	Operations with Integers	
3/31	Coordinate Graphing	

4/7	Geometry – Lines and Angles	
4/21	Polygons and Circles	
4/28	Transformations	
5/5	Terra Nova	
5/12	Elapsed Time	
5/19	Measurement – Surface Area and Volume	
5/26	Probability	
6/2	Problem Solving	
6/9	Two-Step Equations	
6/16	Year End Testing	
6/23	Year End Activities
