

Miss Klem's Classroom Times for January 4, 2010

Dear Families,

It is hard to believe we are already in the year 2010! Time is flying by and I hope each of you are enjoying all the moments. This week we got back into the swing of things by reading our new story of the week "The Gardner" and moving forward in Math on graphs. Many of the skills we are working on will help the students do well on the NYS Math and ELA tests that are coming up in the spring. We began using Coach books for Math and ELA that

off samples of questions that the students will be

given. I will be sending home practice work, as well as the work we've been doing for you to look over and review with your child.

Also, we revisited the Northeast states. The students took a quiz on the 11 states. By the end of the year, they will be expect to know each of the 50 states, as well as where they are located on the map. Please review this information when your child brings home study sheets. On Tuesday and Wednesday, the students worked together in groups to create

posters of the NE states. Here are some pictures of them working together on their creations!

I will be sending home test scores on Monday.

Have a great weekend,

Miss Klem
