

Miss Klem's Classroom Times March 5, 2010

Dear Families,

Can you believe March is already here? I'm amazed at how much the students have grown from September!

This week in Math we began division. It is really important that the students are practicing their multiplication facts nightly to make division less challenging. I will also begin to send home practice state math tests that we've been taking in class. Please review the questions on the test and have your child explain their answers to you. I'm attaching some multiplication review sheets.

I hope you all have a nice weekend!

Miss Klem

<p>ELA We will be reading "Rocks in His Head," by Carol Otis Hurst. This story a biography; the author wrote a memoir about her father's rock collection.</p>	<p>Writer's Workshop We have started to create a larger than life character, setting and problem. The students have great imaginations for their stories!</p>	<p>Science We will begin our unit on birds. The students will be learning about different types of birds and their characteristics. Social Studies We will be exploring the country of Japan, learning about their culture and land, as well as comparing it with our life.</p>
