LeBron James

LeBron James is my favorite basketball player in the NBA right now. He wears my favorite number which is #23. He wears the same number that Michael Jordan wore before he retired. He is a very athletic player when it comes to sports. These are the things about LeBron James.

LeBron James is one of the best basketball players in the NBA right now. He is going to change his number to 6, because he says the number that he is wearing right now is too worthy. LeBron James can dunk on anybody in the NBA. If Wilt Chamberlin was still in the NBA right now LeBron could even dunk on him.

LeBron James is 6 feet 9 inches tall standing straight up. His skin tone is a light brown color. He plays the position small forward in basketball. He has waves in his black hair. He always wears a head-band around his head when he plays his regular season games. His jersey colors are blue, tan, and red (alternate.) His home colors are white and red.

LeBron James is a friendly person. When he gets fouled he doesn't fight with the person who fouled him. He doesn't argue with the referees. He is fair.

LeBron does nice things for people for example there was 1 program that the NBA hosted they donated shoes, clothes, and even their jerseys.

Those were the good things about my favorite basketball player, LeBron James.
