## Looney Toons

Have you ever been to Disney World? I have and my experience there was fun. At the time I was about five years old. I went with my cousins, brothers, and sister. I had a great time especially when I went on stage with Looney Toons.

When I first arrived I heard the music they played. The music to me was boring. It was very noisy there. I saw that they had a lot of different rides, such as the Teapot, Splash Mountain, Small World, Ferris Wheel, Dumbo, Thunder Mountain, Mr. Toad's Wild Ride and a lot of others. I smelled the fried foods they were making such as the cheese burgers, fries, fried dough, popcorn and so much more. When I got hungry we ate cheese burgers and fries. We drank fruit punch, while the grown ups and older kids drank soda. There was so much food I can not even say them all.

Later in the day my cousin asked us where we wanted to go next. The younger kids, including me, said we wanted to go to see the Looney Toons show. The older ones went somewhere else with my other cousins. We went over to the Looney Toons show and sat down. Then the characters came down and started to pull kids up on the stage. Tweety Bird came and took me on the stage. They wanted us to dance but I was too shy, so I just stood there. Tweety Bird was moving my body trying to get me to dance, but I was still not moving. Then they took us back to our seats and my cousin said she was taking pictures of me.

Afterwards we took pictures with the characters. They gave us lollipops with the Looney Toons on them. My cousins were laughing at me because they thought it was funny because I was just standing there. My cousins were annoying me because there was nothing funny about it. They were probably just jealous because they did not get to go on stage. I am just special that's why I got to go on stage.

My first experience on stage I was very nervous. Now, when I get on stage I do my thing. At the Looney Toons show I would not move at all. Now I am the center of attention. Who would have thought when I was a shy five year old that I would love dancing on stage today?
